Professional Summary

UI/Visual Designer (Assistant Manager) with 10+ years of experience designing scalable, user-focused digital interfaces for SaaS and telecom products. Known for delivering high-impact design systems and improving UX flows that drive product growth and retention.

Experience

Visual and UI Designer (Assistant Manager)

MyOperator & Heyo – Remote | April 2014 – Till date

- Led end-to-end UI/UX redesign of Heyo Phone and MyOperator website, boosting trial-to-paid conversions by 22%.
- Conducted user testing and created high-fidelity prototypes for key MyOperator flows.
- Introduced AI-assisted design workflows, reducing design cycle by 30%.
- Designed cloud telephony dashboards and communication modules tailored for sales and support teams.
- Revamped multiple landing pages and blog layouts to align with SEO and brand goals.
- Delivered UI solutions across marketing, customer experience, and development teams.

Senior Web Designer

MyOperator – New Delhi | 2018–2020

- Spearheaded a homepage redesign that reduced bounce rate by 30%.

- Created multiple responsive layouts for product and campaign launches.
- Integrated analytics insights to enhance design performance and iterate features.
- Collaborated with sales and marketing teams to create sales decks and case studies.

Graphic Designer

MyOperator – New Delhi | 2014–2018

- Created branding assets, social media graphics, infographics, and business presentations.
- Developed design templates for business proposals and internal tools.
- Strengthened core design skills while working extensively with the Adobe Creative Suite.
